Introduction

Haian Lianxiang Hardware Products CO., LTD, a factory which has got the ISO 9001-2000 Quality System Certificate, professionally produces different kinds of hardware products. Our factory is located in Haiyan County, Zhejiang Province, China. At present we have 252 workers, among which are 51 professional technicians. Our annual output reach over \$16,800,000. We have two factories. One is a fastener factory which produces Bolts, Nuts, Screws, Washers, Rivets, Threaded Rods ect. The other mainly produces Strut Channels and their accessories, including C Channels, Channel Brackets, Pipe Clamps, Spring Nuts, Stamping products, ect. Now our products are widely used in Beijing Olympic Projects, Qinsan Nuclear Power Station and other key construction projects of China. Also our products are exported to USA, Japan, Europe, Southeast Asia and other areas. Prosper Lianxiang by the most excellent quality, seek better developments by the client's greatest satisfaction is our highest goal!

The
Excellent Fastener Manufacturer In

THE WORLD

>>Quality Policy

Participative management, Implement quality system, Guarantee products quality to meet customer demand; Obey the law of relativity, improve the quality continual, upgrade the products level, fastening the global industries.

THE PERFECT QUALITY GUARANTEE SYSTEM

Company's survival lines in the continuous innovation and development. LIANXIANG is such a company who pays great attention to this.

It is trying its best to optimize products' equipment, improve quality and develop new product in order to serve customers more quickly and much better.

It is not the ultimate purpose to gain the certificate of ISO9001. LIANXIANG has many well-trained engineers to inspect and measure the products quality accurately and improve their test ability with precision instruments, such as high-frequency fatigue machine, spectral analysis machine, universal tensile testing machine and so on. To seeking for zero-defect of products, LIANXIANG performs seriously inspection rules in each processing. Quality is never an accident, it is the result of an intelligent effort.

Hex nut

Hex jam nut

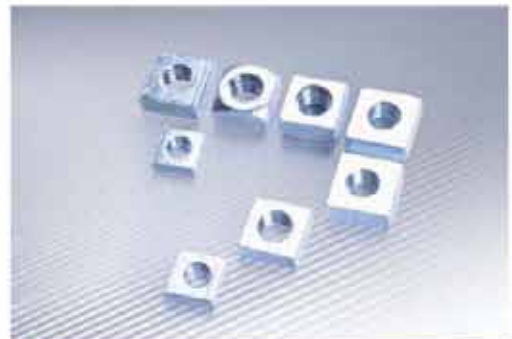

Hex flange nut

Hex heavy nut

Hex nylon lock nut

Square nut

Coupling nut

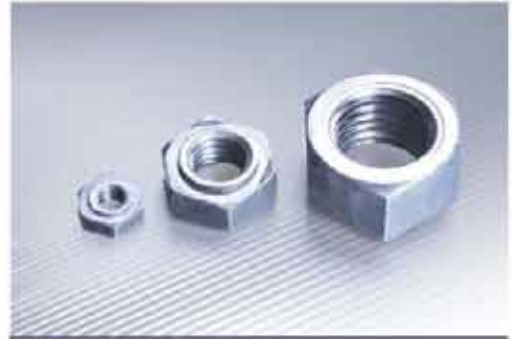

Wheel nut

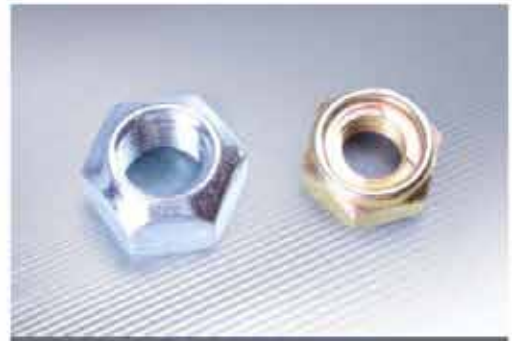

● Square weld nut

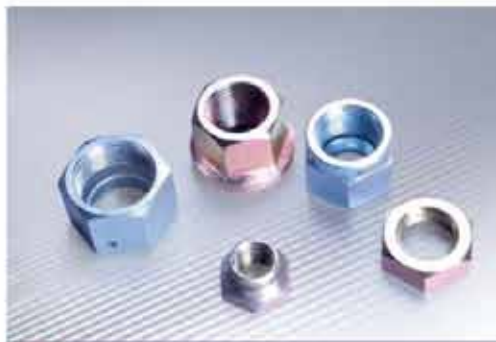

● Hex weld nut

● Hex cap nut

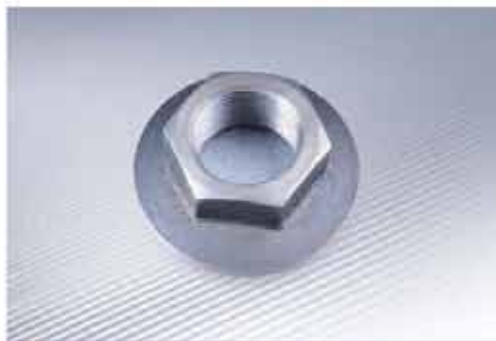

● Prevailing torque type hex nut

● Special nut

● Hex slotted nut

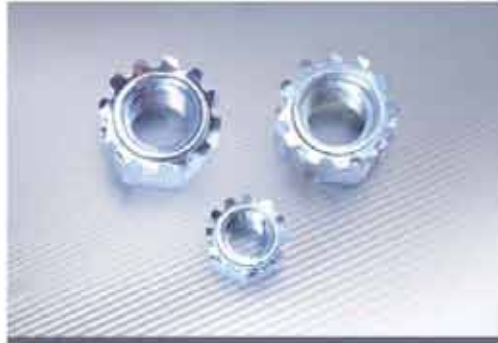

● Hex heavy flange nut

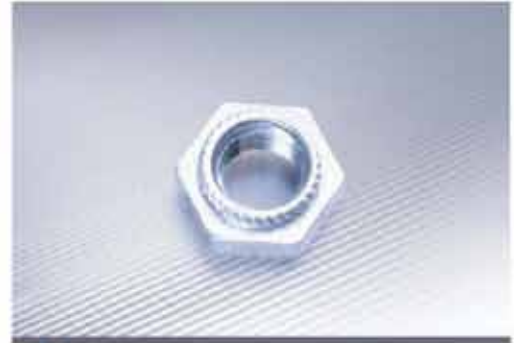

● T nut for wood

● Kep nut

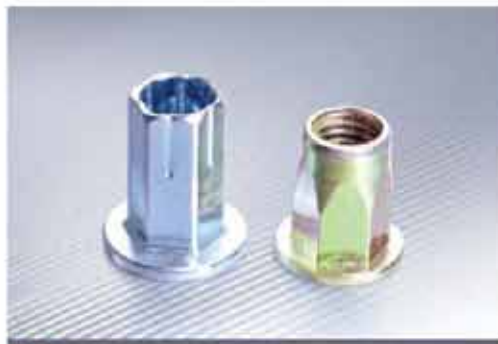

● Press in nut

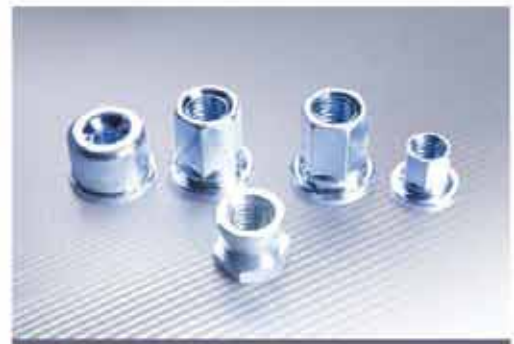

● Wing nut

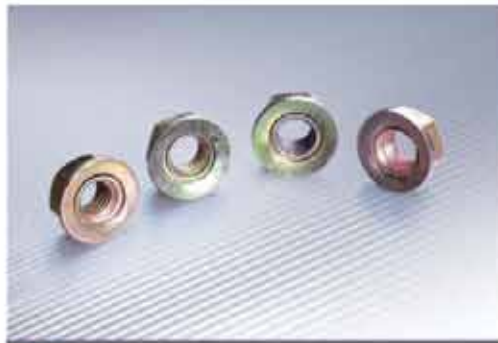

● Rivet nut

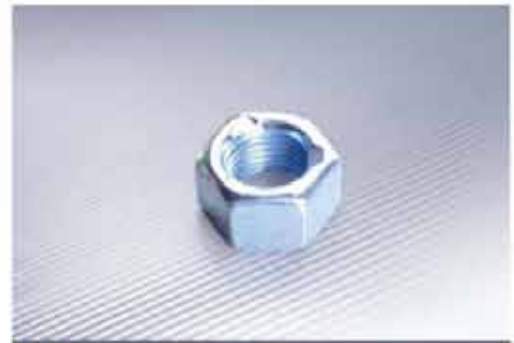

● Furniture nut

● Special nut

● Conical nut

● Prevailing torque type hex nut

● Channel nut with heat shrink wrapped in plastic

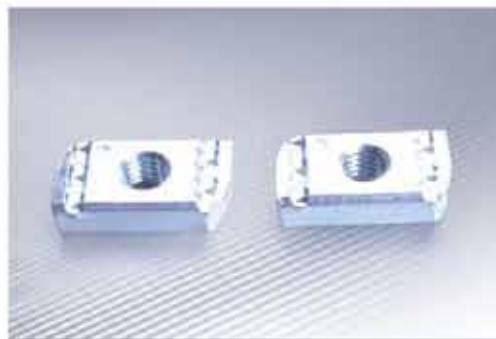

● Channel nut with long spring

● Top retainer channel nut

● Channel nut with short spring

● Channel nut without spring

● Cone nut

● Insert nut

● Special nut

Bolts

● Hex bolt

● Square head screws

● Carriage bolt

● Hex flange bolt with nut

● Automotive bolt

● Hex flange bolt

● Special bolt

● Bent screw

● Channel bolt

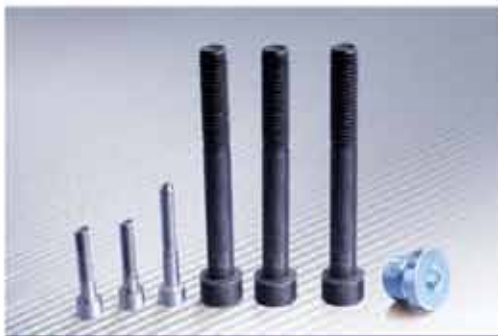

● Railway bolt

● Special bolt

● Hex flange bolt

● Hex socket cap screw

● Square head screw

● Wood screw

● Plastic head bolt

● Hex bolt

● Hex heavy bolt with nut

● Self tapping screw

● Wood screw

● L bolt

● Hex washer self-drilling screw

● Machine screw

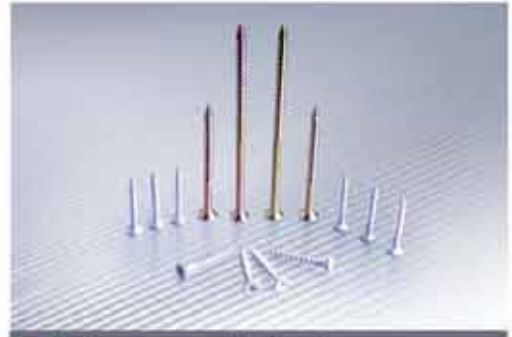

● Roofing bolt

● Pin

● Anchor screws and chipboard screw

● Colorful hook

● Brass toilet bolt set

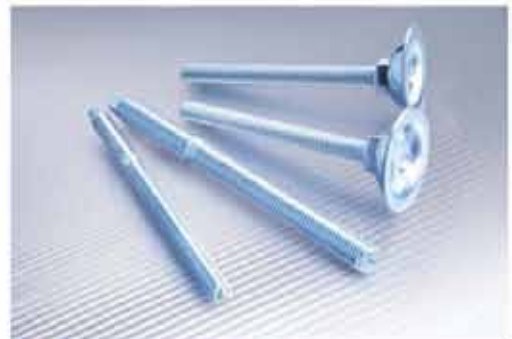

● Special bolt

● Pig's tail screw

● Special screw

● Chemical anchors stud

● Furniture screw

● Hex bolt with washer

● Thumb screw

● Special bolt

● Special bolt

● Automotive bolt

● Eye bolt

● Bushing

● Connective bolt

● Grout anchored deformed bar

● L bolt

● Special nail

● U bolt

Self drilling screw

Chipboard screw

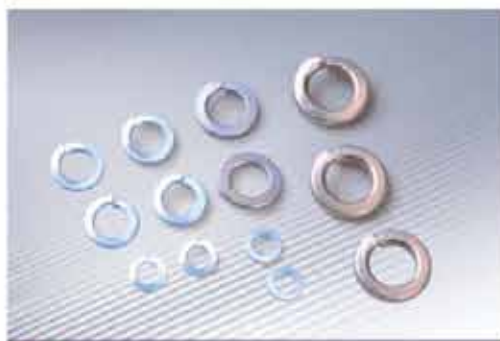

Concrete Nail

Drywall screw

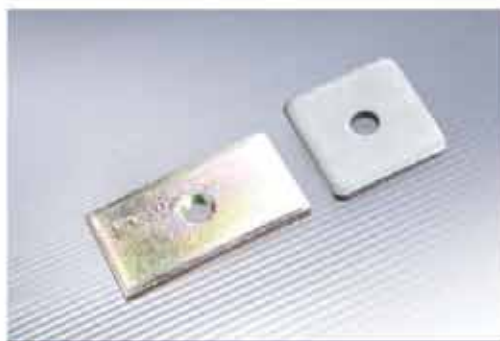

Washers

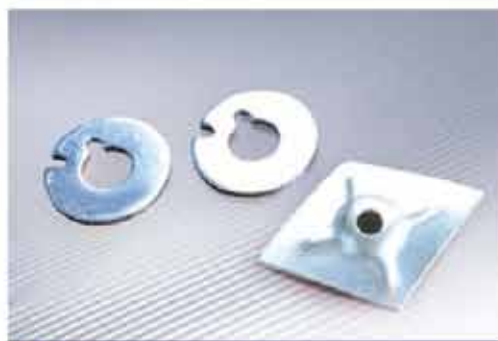

Spring washer

Flat washer

Square washer

Special washer

Anchors

● Hit anchor

● Metal frame anchor

● Slight sleeve anchor

● Wedge anchor

● Sleeve Anchor bolt

● Sleeve Anchor bolt

● Gravity spring toggle anchor

● Toggle bolt

Threaded rod

● Threaded rod
